**SOBHONA BHATTACHARJEE** retired as a teacher from St Edmund's School, Shillong, where she developed a keen interest in the folk tales of India's Northeast and beyond and started documenting the oral literature through the people she met in everyday life. Her Khasi Folktales was first published in 1979. Although she works extensively on folk tales, her stories are not confined to that. Her first book was Nepali Lokokatha. Her other books are Meghalaya o Mizoram er Lokokatha, Desh Bidesher Lokokatha and an autobiographical sketch of Guwahati, Kichu Smriti Kichu Chobi. All her published works are in Bengali. She is eighty-three years old.

## Folk Tales from Meghalaya

**SOBHONA BHATTACHARJEE**

Illustrated by **CAREEN JOPLIN**

**A collection of sixteen magical myths and fables that will transport you to the abode of clouds!**

In the beautiful hills of Khasi, Garo and Jaintia in Meghalaya, there are fairies that can create rivers, a plant that can make people invisible and a fern bush which can ward off evil spirits. There are also three-headed giants, queens and villagers, animals and birds, and many other fascinating plants and creatures.

In this book, you will find a wonderful selection of stories about these fantastic beings and simple hill folk who have lived on these blue hills since ancient times.

Passed down by word of mouth over hundreds of years, these sixteen magical folk tales from Meghalaya, in the north-east of India, are full of adventure, wonder and excitement.

## Raman and Chandrasekhar: Lighting Up the Stars

**ARUNDHATI VENKATESH**

Illustrated by **PRIYA KURIYAN**

**A humorous, physics-filled adventure in Madras featuring a young Chandrasekhar's chaotic holiday with his renowned scientist uncle, C.V. Raman.**

Holidays are starting—and that is especially joyful for Subrahmanyam Chandrasekhar who hates school. But even the holidays are ruined because his uncle, C.V. Raman, is coming to stay.

Raman Chithappa is a world-renowned scientist, and he likes to talk about himself and about science. He bulldozes the eight kids in the family to participate—with varying degrees of enthusiasm—in a series of adventures and experiments in physics. These disrupt the household, anger the adults, terrify the domestic helps and outrage the neighbours. And for Chandra, they provide a glimpse of a world he finds he might want to be a part of.

Filled with rollicking humour and intense physics, this meticulously researched novel describes a challenging yet magical winter in Madras of a family with two Nobel laureates and other science luminaries in a vividly imagined historical setting. Priya Kuriyan's joyful illustrations capture the riot and rumpus in striking detail.

The **Great Minds at Work** series looks at the childhoods of people who made history against the backdrop of the times and places they grew up in.

**MADHURIMA VIDYARTHI** always has a pen in her hand to write books and prescriptions. As an endocrinologist, she trained in London for many years before coming home to Calcutta to work and write.

The School for Bad Girls is her third book, but she is planning to write many more.

Madhurima likes to travel, eat good food and delve into history. She lives in an untidy house full of unruly family members and desperately wants a dog.

## The School for Bad Girls

MADHURIMA VIDYARTHI

The story of Kadambini Ganguly, one of the first women graduates and doctors, against the backdrop of the evolution of women's rights in nineteenth century Calcutta.

Something strange is happening in the heart of the British Empire.

Nineteenth-century Calcutta is abuzz with social reforms, especially with regard to women's rights and education. And in this time, Kadambini Ganguly dreams of going to university—and in the ultimate audacious hope—wants to become a doctor.

But for many people, the idea of girls studying is anathema. And a school full of unmarried girls and widows getting an education, in an environment where caste is disregarded and every student treated as an equal, leads to charges of immorality. And the battle to get the right to a college education is against overwhelming odds.

The fictionalized story of Kadambini, one of the first women graduates of the British Empire and the first woman to get a degree from an Indian medical college, is rivetingly told by Madhurima Vidyarthi in a fascinating portrait of nineteenth century life, society and its arbitrary mores.
